Ozgur Rubber Overview

Ozgur Rubber is a manufacturer company of molded and extruded rubber, elastomer products and compounds to provide sealing solutions.

The company have served in rubber industry over 40 years.

Ozgur Rubber Product range includes more than 5000 different Solid and Sponge(foam) products such as profiles, gaskets, sealings, manufactured from EPDM, NR, NBR, SBR, TPE, PVC and Silicone raw materials.

ERGENE - TEKIRDAG - TURKEY
2021

Ozgur Rubber's products provide solutions to construction, infrastructure, maritime, automotive, energy, mining, packaging and printing industries in more than 30 different countries.

Ozgur Rubber's production facility has 100 employees, 8 production lines, 4000 tonnes production capacity, which is located in Tekirdag, Turkey

HISTORY

Since 1977

Foundation

OZGUR RUBBER was founded in 1977 by "Mr. Serif MARASLI" at Bayrampasa Istanbul workshop.

The company started to manufacture costum sponge rubber profile products with 5 employees.

2nd Facility & 3rd Gen

IKITELLI - ISTANBUL - TURKEY

Company moved to Ikitelli workshop in Istanbul in 2003.

Mr. Ozgur Marasli" was put in the charge of company as third generation in 2006.

4th Facility

HADIMKOY - ISTANBUL - TURKEY

Year 2019, Ozgur Rubber facility moved to Hadimkoy Istanbul Factory and doubled production capacity

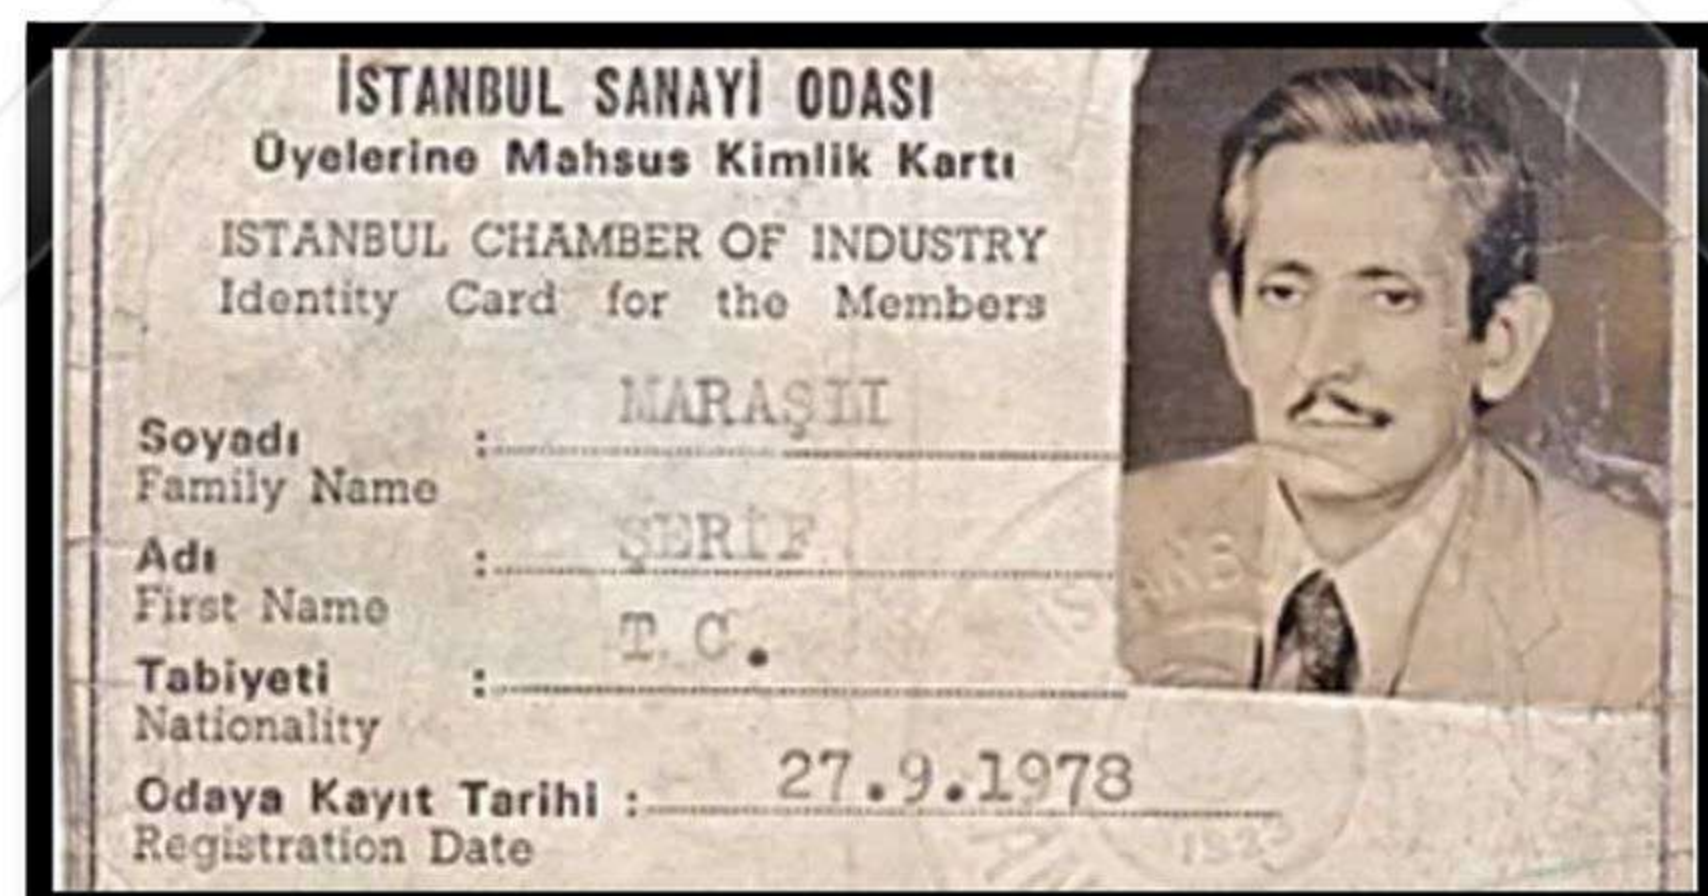

1977

1990

2003

2015

2019

2nd Generation

BAYRAMPASA - ISTANBUL - TURKEY

Year 1990, "Mr. Kazim MARASLI" took over the company and specialized on sponge rubber products.

Ozgur Rubber started to supply sponge product to all regions of Turkey with more than 50 different products.

3rd Facility

ESENYURT - ISTANBUL - TURKEY

Year 2015, production facility moved to Esenyurt Istanbul Factory and started to manufacture extruded rubber products, Seals and Gaskets

Perfect Director

Director Statement

“

At Ozgur Rubber, our journey has always been driven by a commitment to innovation, quality, and customer satisfaction. As we continue to grow and expand our reach globally, we remain dedicated to delivering the highest standards in sealing solutions for industries worldwide.

Our success is built on the trust and loyalty of our clients, who rely on us to provide durable, efficient, and innovative products that stand the test of time. This trust motivates us to continuously invest in cutting-edge technology, research, and sustainable practices to meet the evolving needs of our customers.

As a company, we believe in not only meeting expectations but exceeding them. Whether it's through our customized solutions, fast and reliable delivery, or our expert support, we aim to build lasting relationships with our partners, clients, and employees.

The pages of this catalog reflect our commitment to excellence, showcasing the breadth and depth of our product offerings. I am proud of what we have accomplished, and even more excited about what lies ahead as we continue to shape the future of sealing solutions.

Thank you for your trust in Ozgur Rubber. We look forward to continuing our journey together.

”

Özgür Marasli
General Manager

Management Team

At Ozgur Rubber, our management team is the driving force behind our success. With a wealth of expertise and a shared vision for excellence, they guide our company in achieving sustainable growth and delivering high-quality solutions to our global clients. Each member of our leadership team brings a unique set of skills and a deep understanding of their respective fields, ensuring that we remain at the forefront of innovation and customer satisfaction.

Ozgur Rubber Facility

Research & Development Division

Our in-house engineering and design teams use parametric design to create rubber parts and enhance product performance in ways that will positively impact your profitability. We provide solid modeling of parts, tooling, dies.

Die & Tooling Division

Owing to our in-house tooling expertise, we have the capability to produce new extrusion tools from scratch to meet your specific design requirements, available for use within hours, and at competitive prices. This in-house service helps to control manufacturing quality, costs, and timeframes because everything is carried out here at Advanced Materials.

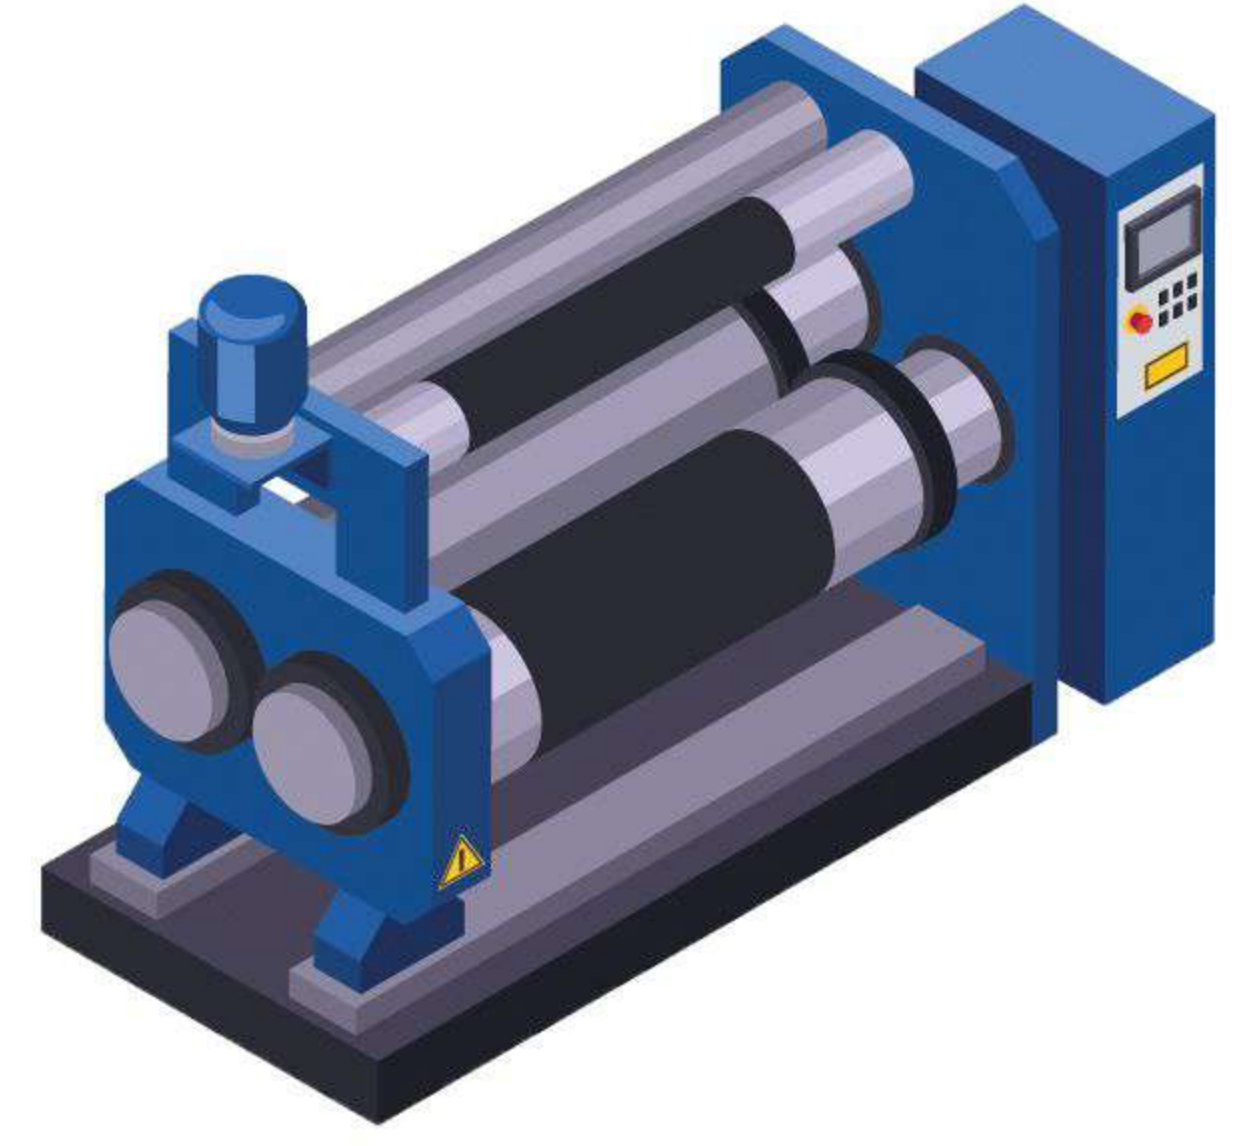

Rubber Manufacturing Technologies

Rubber Mixing Division

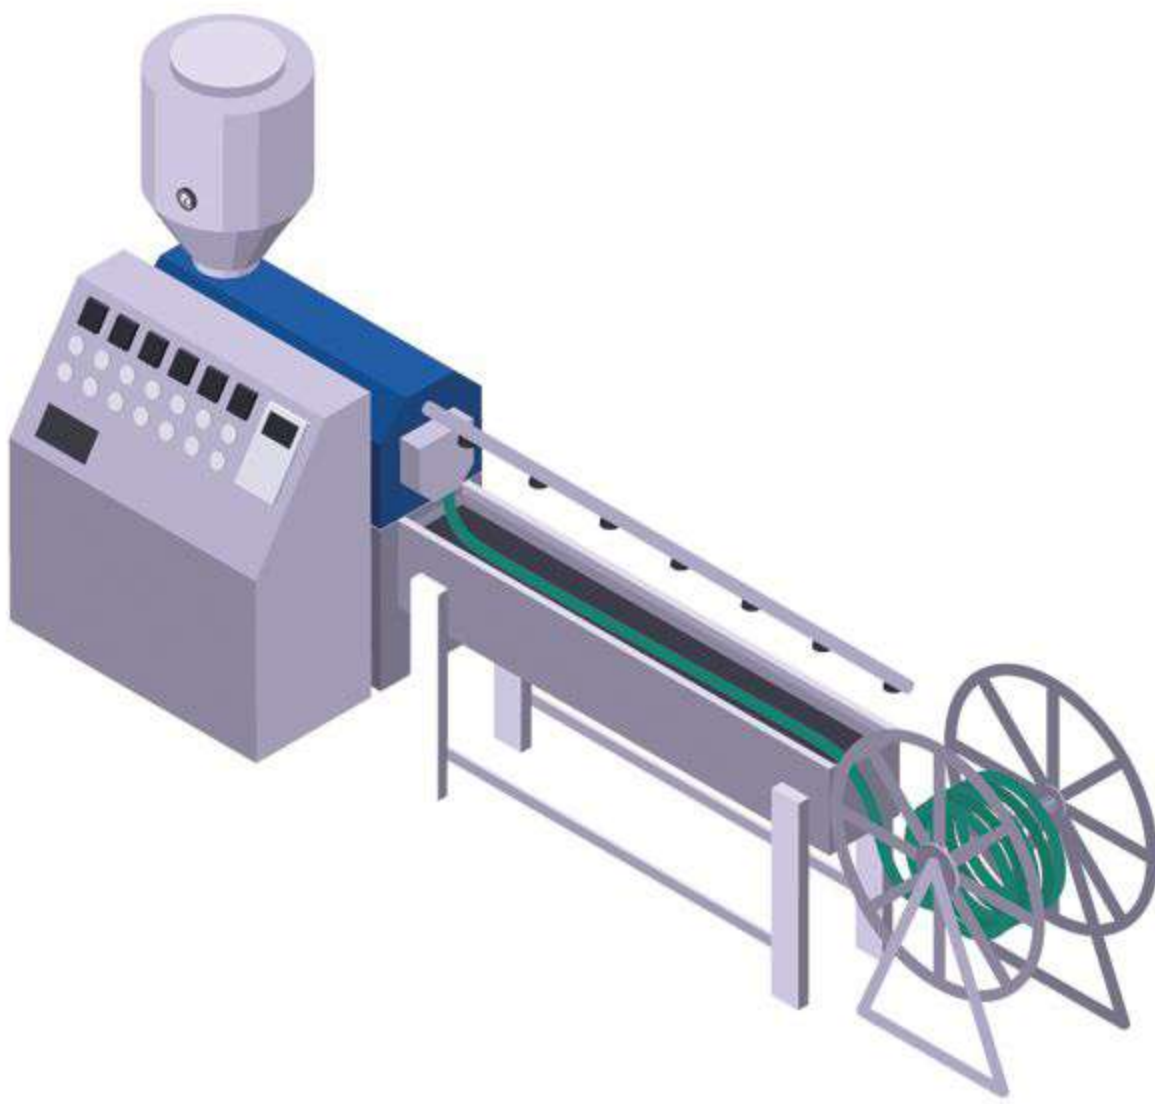

We have the capabilities of developing and producing rubber compounds within the company itself.

We develop EPDM, NR, NBR, SBR rubber, TPE, PVC recipes which meets the customer specifications and standardization.

Specific periodic tests are repeated in facility to check the stability of compounds quality.

Rubber Extrusion Division

At Ozgur Rubber, our Extrusion Division specializes in producing high-quality custom rubber profiles using advanced extrusion technology. We offer a wide range of materials, including EPDM, NBR, SBR, NR, silicone, TPE and PVC designed to meet the specific needs of every industry.

Our commitment to quality and innovation ensures that each profile delivers superior performance and durability, making Ozgur Rubber a trusted partner for extrusion solutions.

Ozgur Rubber Facility

Rubber Molding Division

The Rubber Molding Division at Ozgur Rubber is the backbone of our manufacturing process, dedicated to producing high-quality, precision-molded rubber components for a wide range of industries. Utilizing the latest in molding technology and expert craftsmanship, we create products that meet the highest standards of durability, flexibility, and performance.

Quality Control Division

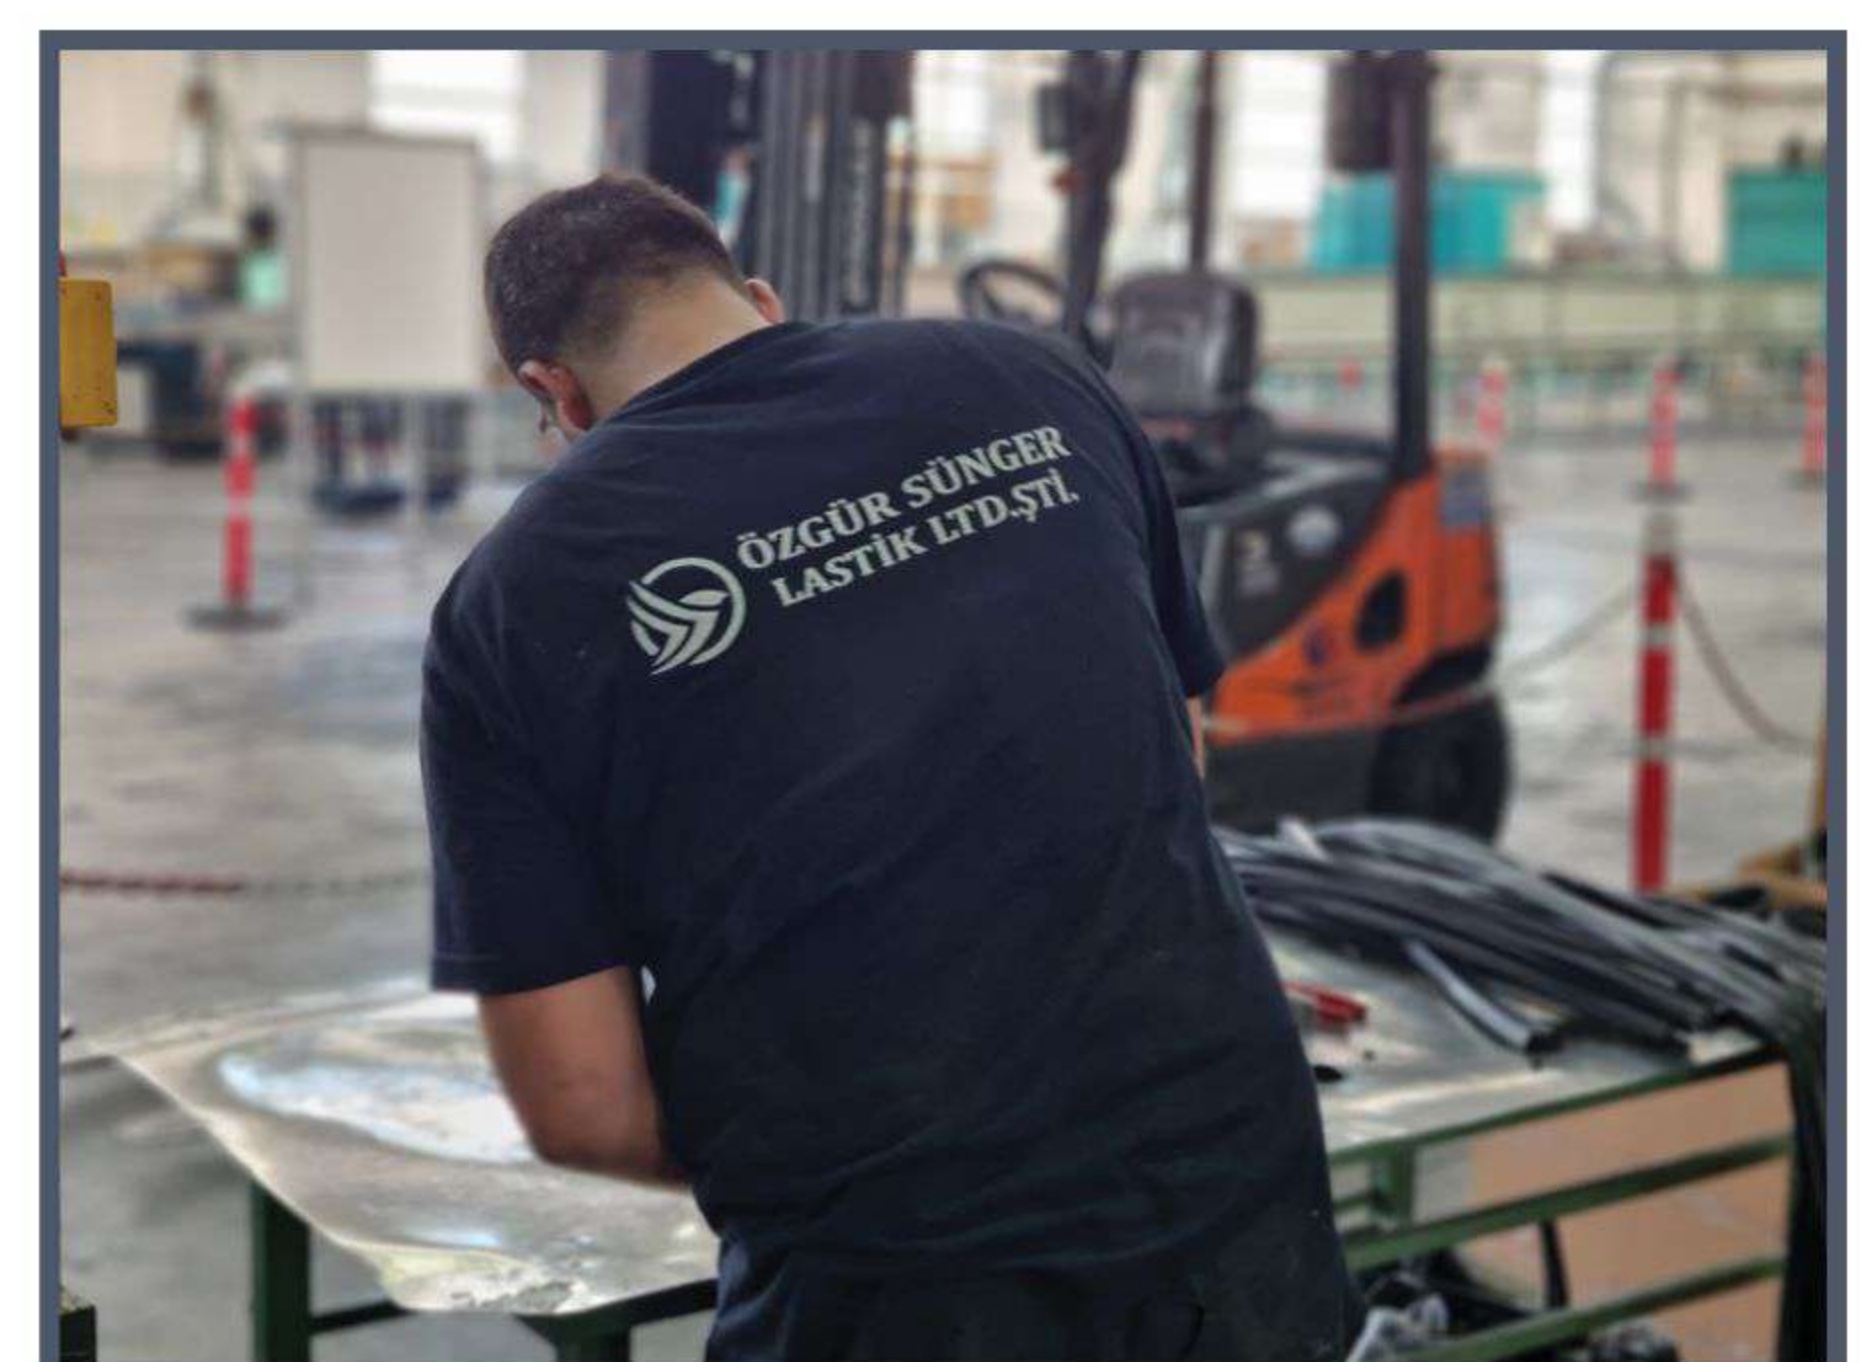

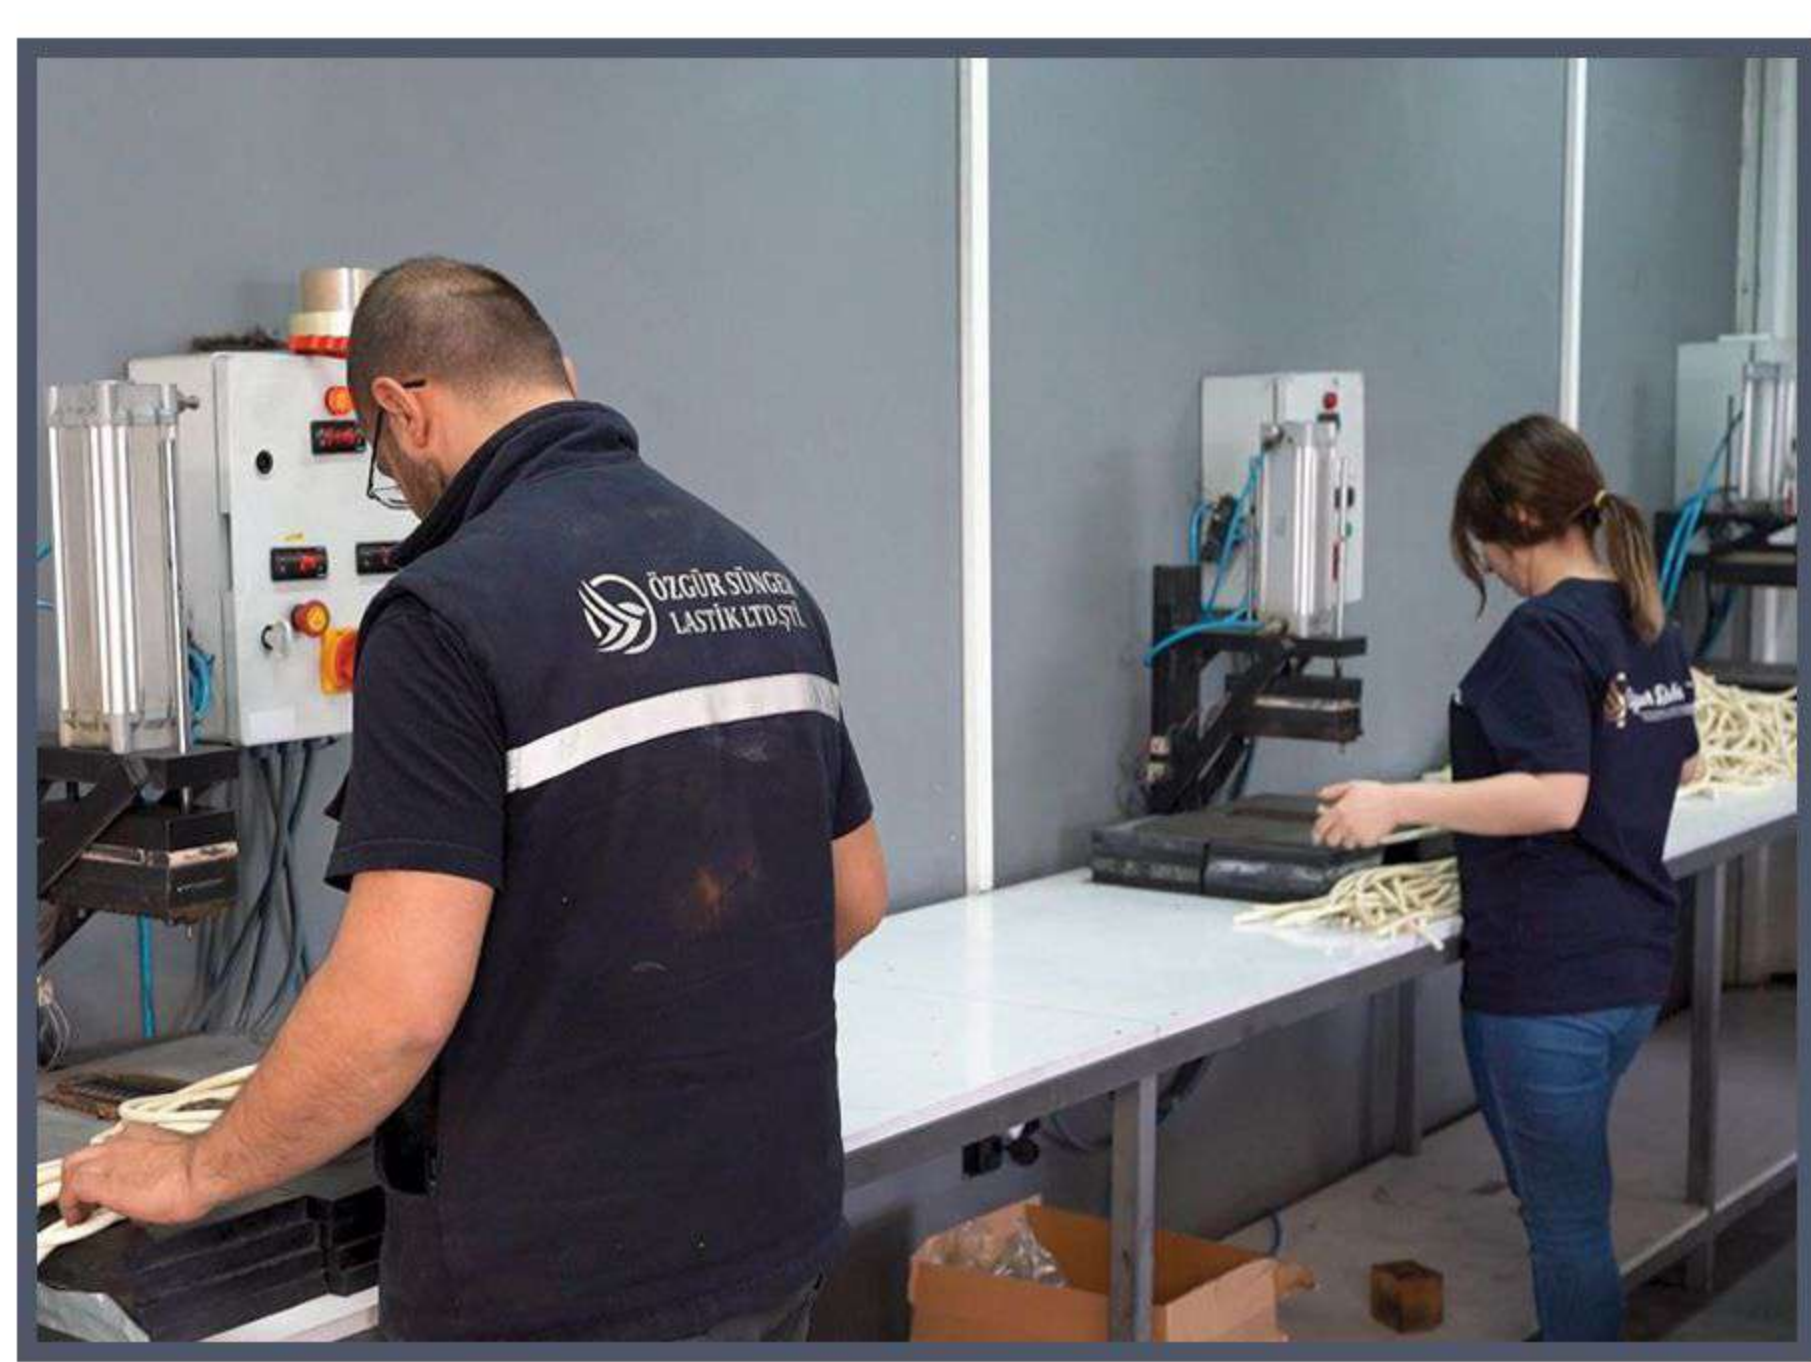

At Ozgur Rubber, quality is the cornerstone of everything we do. Our Quality Control Division is dedicated to ensuring that every product we manufacture meets the highest industry standards for performance, durability, and safety. By employing rigorous testing procedures and state-of-the-art technology, we maintain our commitment to excellence at every stage of production.

Rubber Manufacturing Technologies

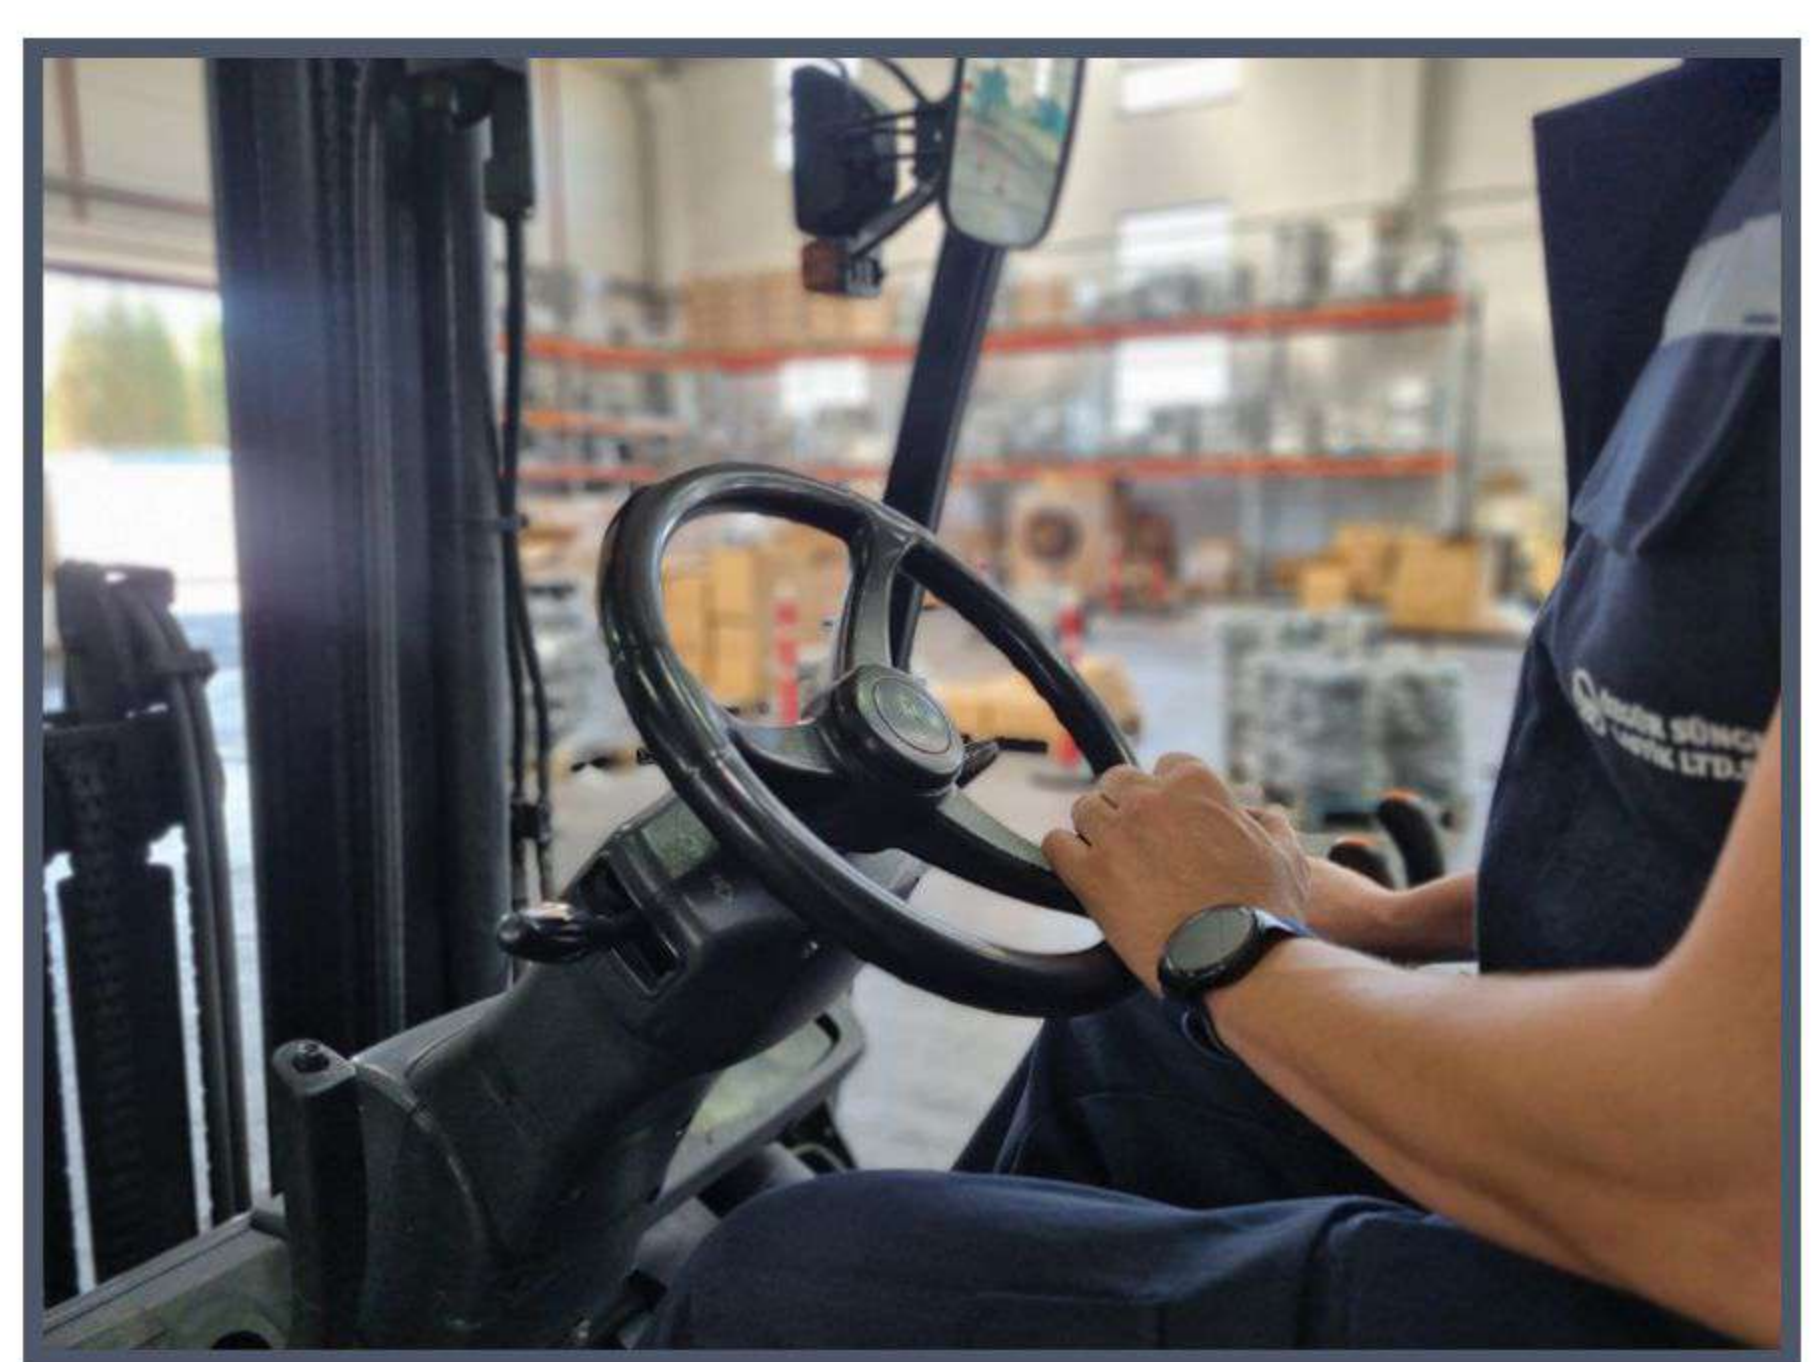

Crafting Division

The Rubber Crafting Division at Ozgur Rubber is where precision, craftsmanship, and advanced techniques come together to create highly customized rubber products. Specializing in various processes such as cutting, cold gluing, hot gluing, and adhesive tape application, our division provides tailored solutions for industries that demand excellence in every detail.

Logistics Division

At Ozgur Rubber, our Logistics Division plays a critical role in ensuring that our high-quality products reach customers around the world swiftly and efficiently. With a commitment to reliability, precision, and timely delivery, our logistics team is dedicated to streamlining every aspect of the supply chain to meet the diverse needs of our global clients.

Certificates

Ozgur Rubber TM
EXTRUDED & MOLDED RUBBER
PRODUCTS' MANUFACTURER

As Ozgur Rubber, being a ISO 9001:2015, ISO 14001:2015, ISO 10002, OHSAS 18001, REACH, ROHS, FDA, TSE certified company, quality has been paramount for us.

A proper quality management system comprising various compliances across different stages of manufacturing of products, right from the initial stage of procurement of raw materials is what differentiates us from others.

OZGUR RUBBER's quality assurance management is carried out by qualified personnel in the production processes from raw material entry to the end of the product.

"Quality is never an accident, It is always the result of intelligent effort."

Declaration of Performance

DECLARATION OF PERFORMANCE
According to Annex III to Regulation (EU) No. 305/2011

Document ID : 1-2024

1. Unique identification code of the product-type

A-001
2. Batch or order number

Applicable to batches produced from January 1st, 2020 onwards.
3. Intended use

Suitable for use in residential and commercial buildings, for joints in pipes intended for conveying cold water and sewage."
4. Manufacturer:

ÖZGÜR SÜNGER LASTİK LTD.ŞTİ. Factory: Velimeşe OSB Mah. 121.Sok. No: 14 Ergene / TEKIRDAG
5. Authorized representative

OZGUR RUBBER TRADEMARK
6. System of assessment and verification of constancy of performance

4

The above described object of the declaration complies with the requirements of the following documents

Regulation (EU) no. 305/2011

"UNI EN 681-1:2006 Elastomeric seals – Material specifications for pipe joint seals used in water and drainage systems – Part 1: Vulcanized rubber.

7. To this purpose and in accordance with the system of assessment and verification of constancy of performance indicated in 6, OZGUR SUNGER (manufacturer) has carried out the determination of the product-type on the basis of type testing and a descriptive documentation of the product and has implemented a factory production control issuing under its responsibility test reports

Requirement	Essential characteristic (column 1)	Test standard		Performance (column 2)	Reference technical document	Harmonised technical specification
Dimensional Tolerances	Class of Tolerances	ISO 3302		E2	-	UNI EN 681-1 : 2006
Tightness: gas and liquid	Hardness	ISO 48		Class 50	Test report for Ozgur Rubber dated April 6th 2020	
	Tensile strength and elongation at break	ISO 37 Type 1 test-pieces	Ultimate tensile strength	10,3 MPa		
			Elongation at break	610 %		
	Residual bucling in the air	ISO 815	24h, 70°C	12,8 %		
			72h, 23°C	8,2		
			72h, -10°C	30.2 %		
	Change of volume in	ISO 1817		(+)4 %		
Duranility	Accelerated ageing resistance in the air	ISO 37	Ultimate tensile strength	(-)4 %	no.642/2008	
			Elongation at break	(-)5 %		
		ISO 48		(+)2.5 %		
	Compression stress relaxation	ISO 3384	7d,23°C	11.4%		
			100d,23°C	16.7%		
	Ozan resistance	ISO 14311		No visible cracking at 7x		

10. The performance of the product identified in 1 and 2 is in conformity with the declared performance in 9.
This declaration of performance is issued under the sole responsibility of the manufacturer identified in 4.

Research & Development

Innovation and Research

With a constant focus on innovation, quality, and sustainability, Ozgur Rubber is leading the way in sealing technology. We are proud to provide advanced solutions that help our clients achieve greater efficiency, safety, and reliability in their projects.

At Ozgur Rubber, every product undergoes rigorous testing to ensure it meets international standards. Our quality control process includes: efficiency, safety, and reliability in their projects.

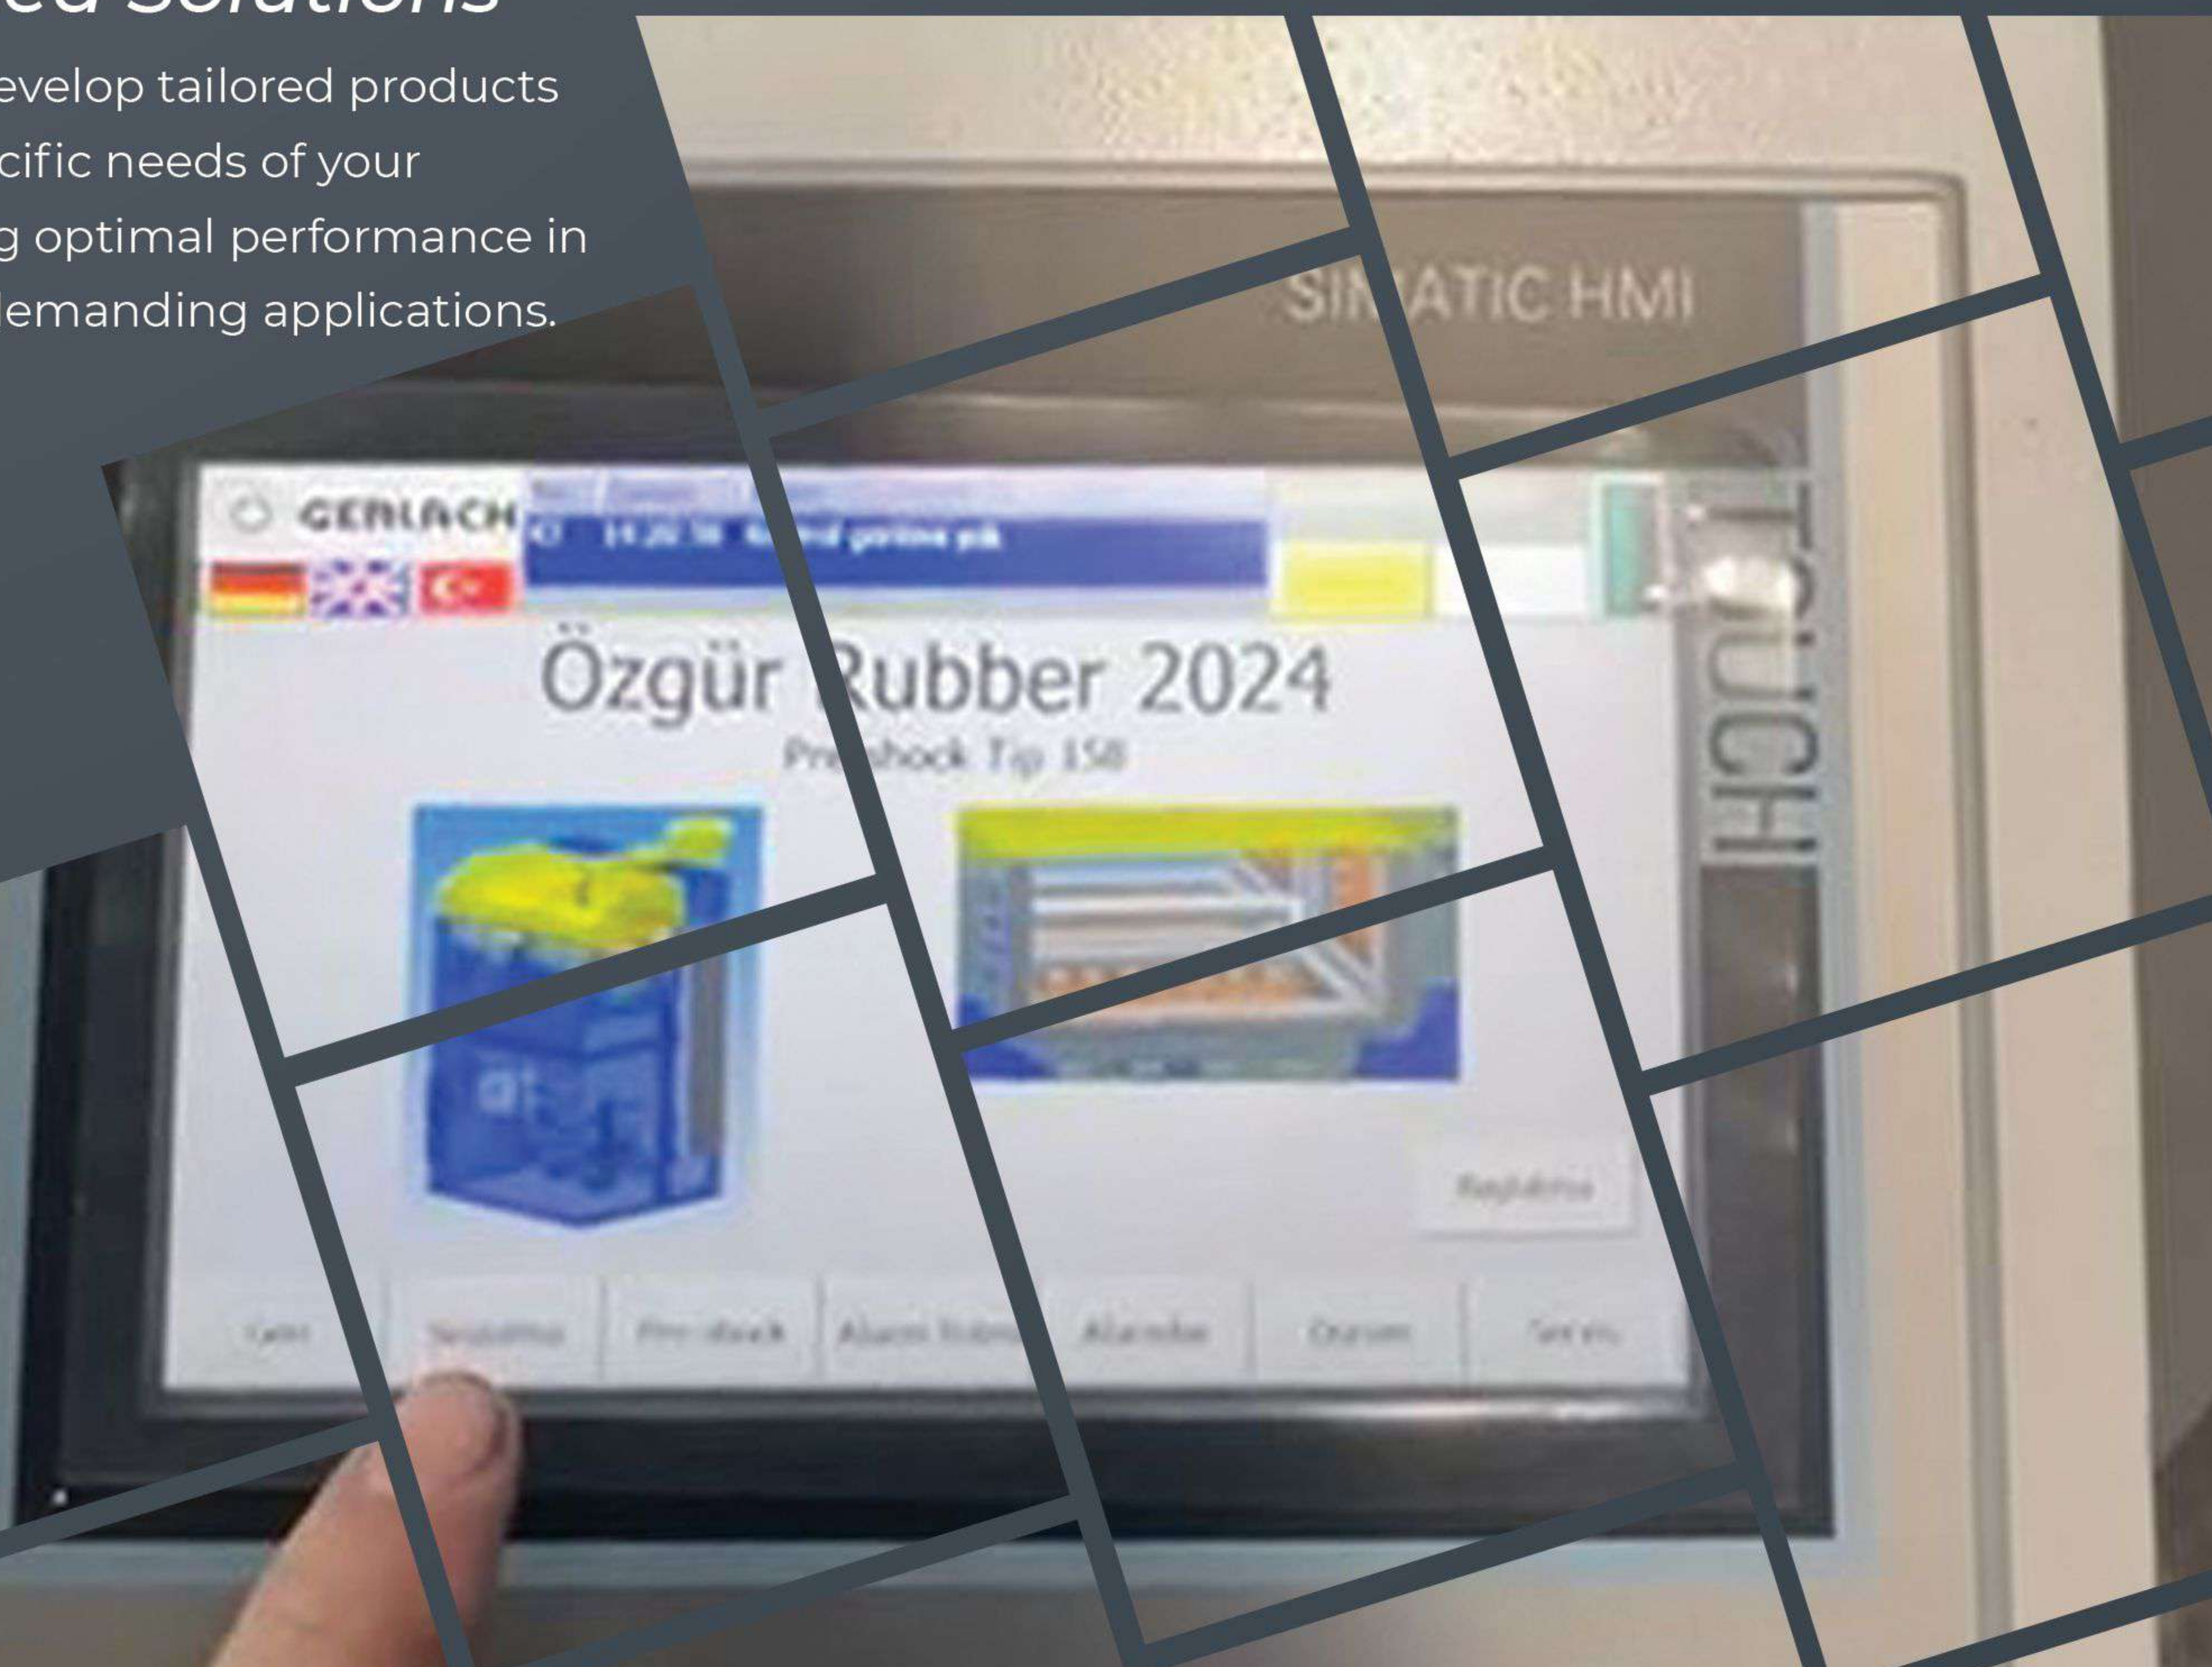

Ozgur Rubber Technology

At Ozgur Rubber, innovation and technology are at the core of everything we do. Our cutting-edge manufacturing processes, combined with a commitment to research and development, allow us to produce world-class sealing solutions that meet the evolving demands of industries worldwide.

Customized Solutions

Our team can develop tailored products to meet the specific needs of your project, ensuring optimal performance in even the most demanding applications.

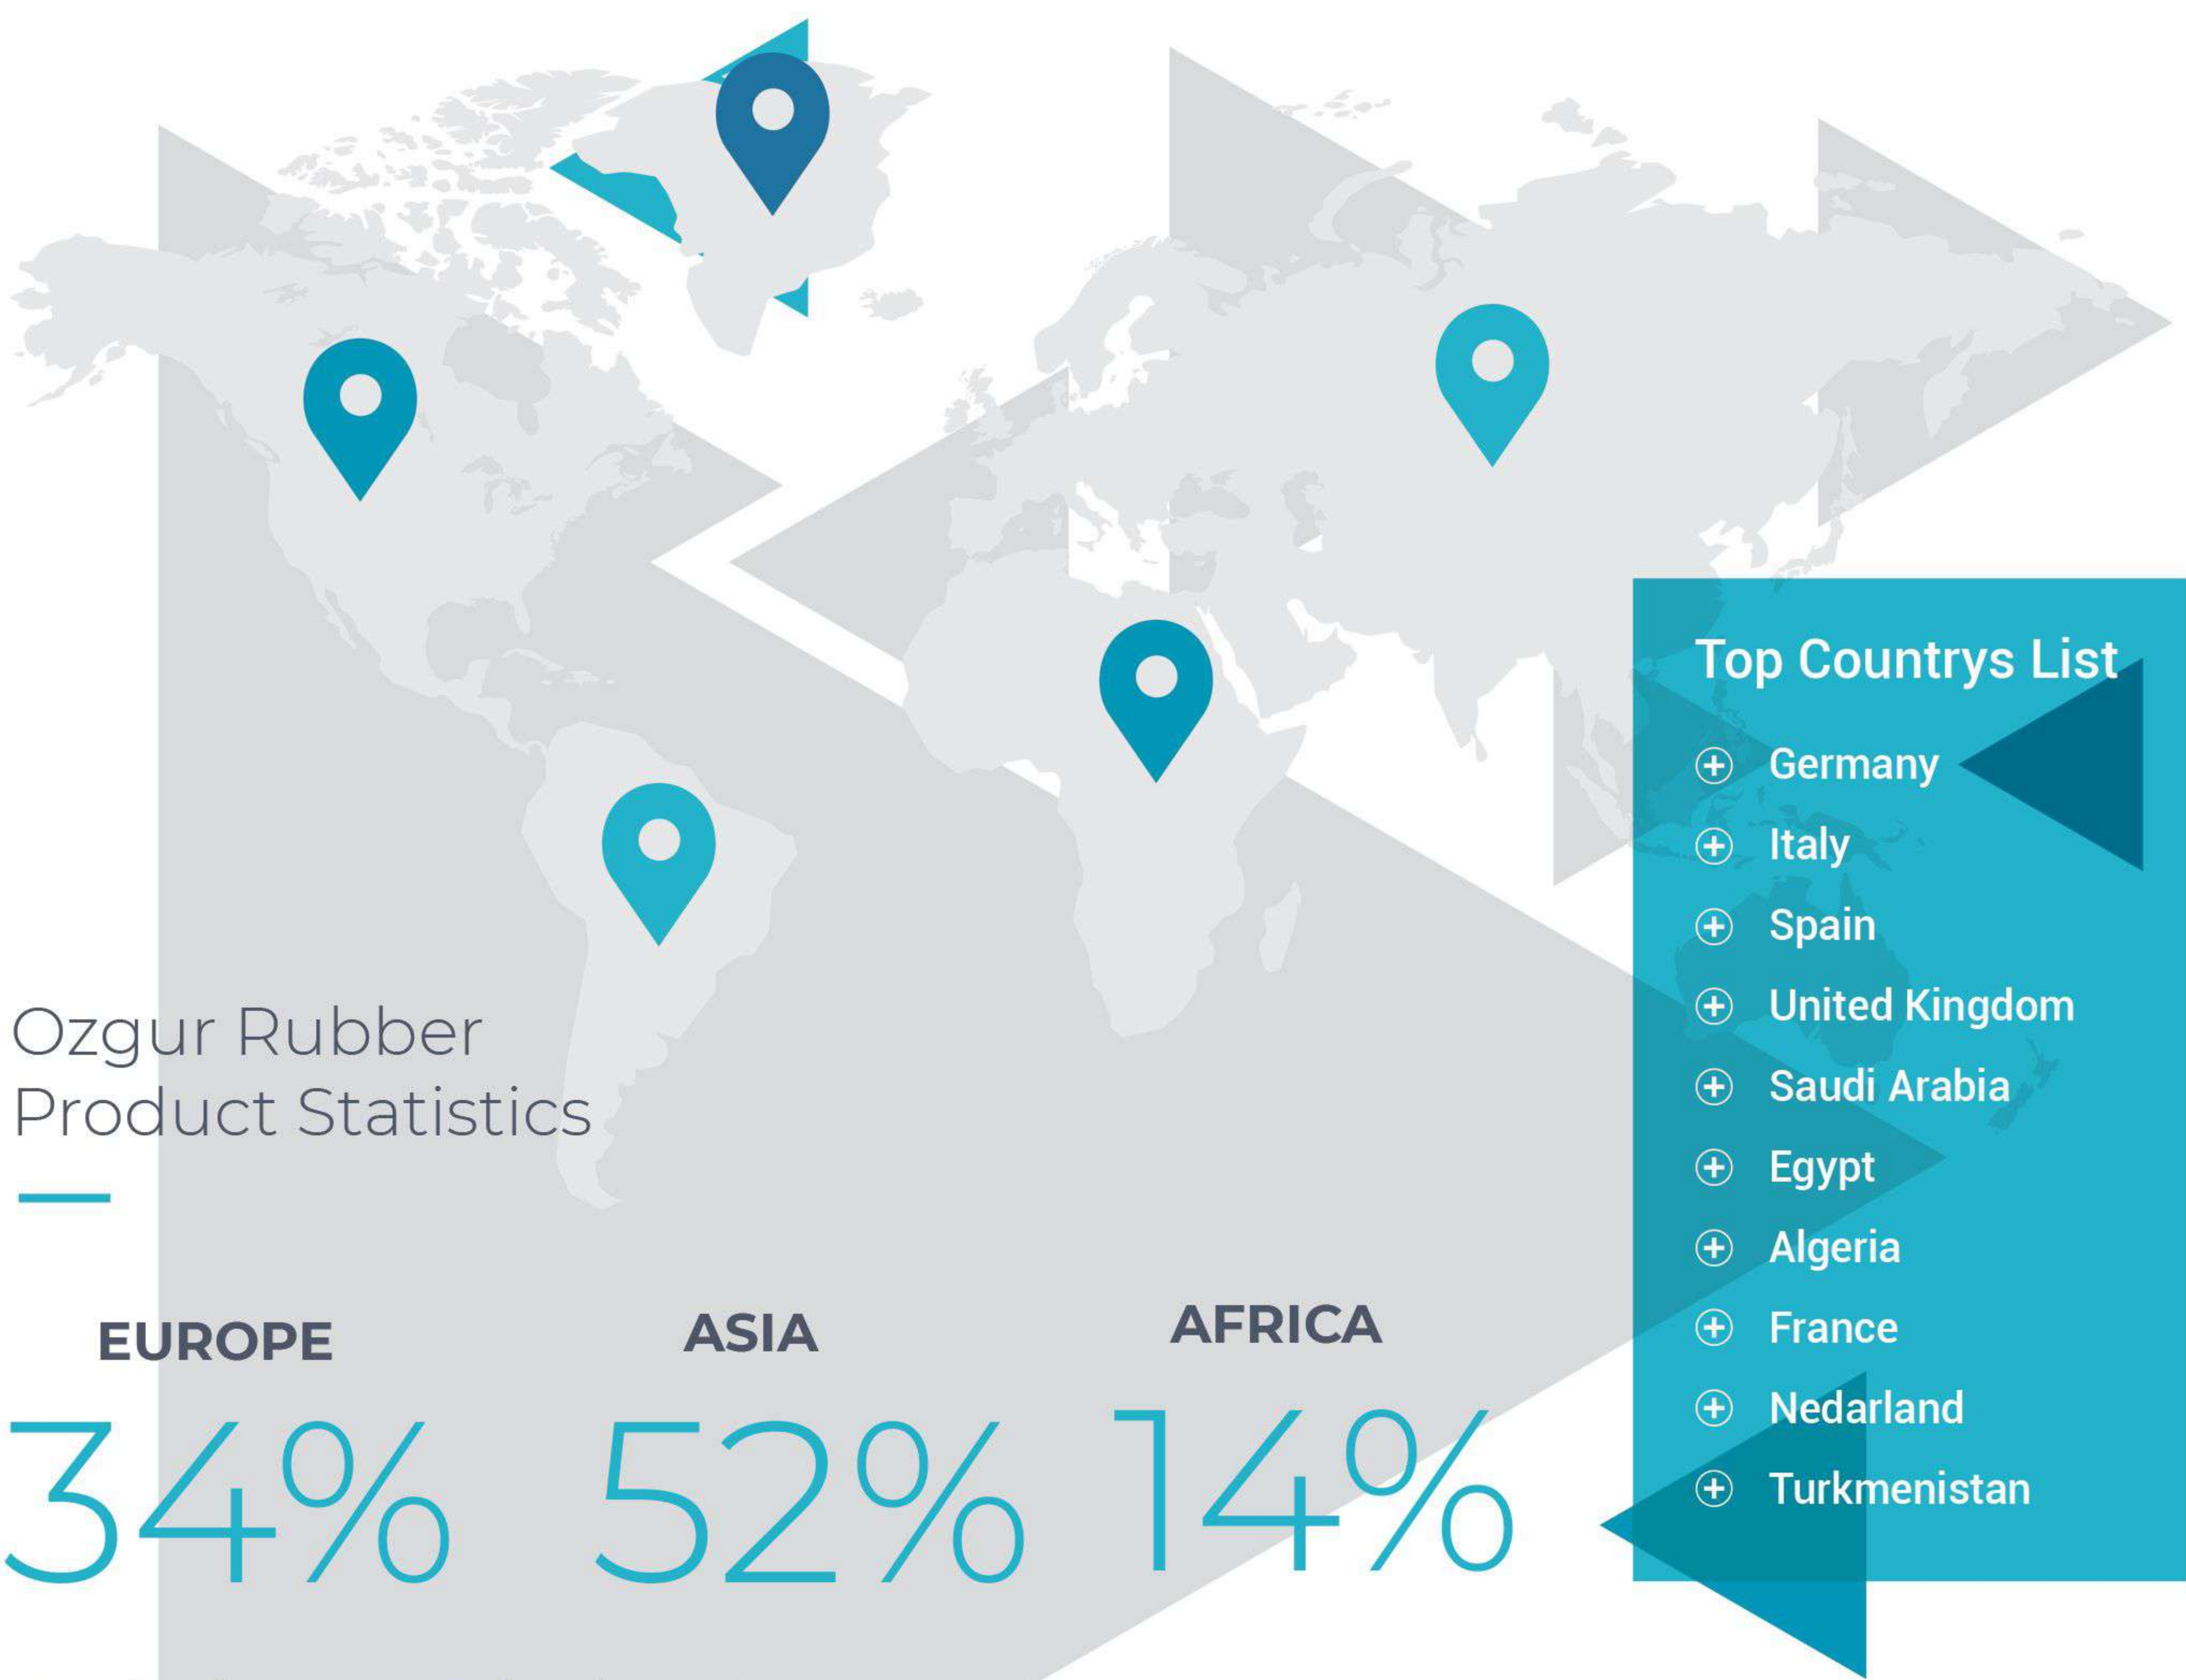

Our Statistics

Ozgur Rubber TM
EXTRUDED & MOLDED RUBBER
PRODUCTS' MANUFACTURER

At Ozgur Rubber, we are proud of our expanding presence across Europe, Asia, and Africa, delivering high-quality sealing solutions to meet the diverse needs of these regions. Our commitment to excellence and customer satisfaction has led to significant growth in each of these markets.

Driving Global Success

Ozgur Rubber’s sales success across these regions is a testament to our commitment to quality, innovation, customer-centric service. Our ability to adapt to local market needs while maintaining international standards has allowed us to continue expanding our global footprint.

We look forward to further strengthening our presence and supporting our clients in Europe, Asia, and Africa with the best sealing solutions in the industry.

Regular Clients

Our focus is on building long-term partnerships, driven by trust, transparency, and mutual growth.
We are proud to support our regular clients by providing the high-performance products,
exceptional service they need to succeed in their projects.

At OZGUR RUBBER, your success is our priority. We look forward to continuing to support our clients
as their trusted partner for reliable, efficient solutions.
